

# Project Assessment Rubric

	10-9	8-7	6-5	4-0
Functionality	<p>The application contains comprehensive &amp; robust evidence on the following:</p> <ul style="list-style-type: none"> <li>• opens &amp; runs on API 28: Android 9.0 (Pie) without file structure &amp; code modification.</li> <li>• text translation, text to speech &amp; localization support.</li> <li>• selection of well-known phrases.</li> <li>• interactive quiz.</li> <li>• exit application via dialog.</li> <li>• Google map displaying markers.</li> <li>• light &amp; dark mode.</li> <li>• splash screen with image &amp; transition animation.</li> <li>• adaptive launcher icon.</li> <li>• navigation to activities.</li> <li>• visually attractive UI.</li> <li>• published to &amp; downloadable from Google Play Store.</li> <li>• UI tests verify correctness.</li> </ul>	<p>The application contains clear &amp; detailed evidence of functionality on the following:</p> <ul style="list-style-type: none"> <li>• opens &amp; runs on API 28: Android 9.0 (Pie) without file structure &amp; code modification.</li> <li>• text translation, text to speech &amp; localization support.</li> <li>• selection of well-known phrases.</li> <li>• interactive quiz.</li> <li>• exit application via dialog.</li> <li>• Google map displaying markers.</li> <li>• light &amp; dark mode.</li> <li>• splash screen with image &amp; transition animation.</li> <li>• adaptive launcher icon.</li> <li>• navigation to activities.</li> <li>• visually attractive UI</li> <li>• published to &amp; downloadable from Google Play Store.</li> <li>• UI tests verify correctness.</li> </ul>	<p>The application contains evidence on the following:</p> <ul style="list-style-type: none"> <li>• opens &amp; runs on API 28: Android 9.0 (Pie) without file structure &amp; code modification.</li> <li>• text translation, text to speech &amp; localization support.</li> <li>• selection of well-known phrases.</li> <li>• interactive quiz.</li> <li>• exit application via dialog.</li> <li>• Google map displaying markers.</li> <li>• light &amp; dark mode.</li> <li>• splash screen with image &amp; transition animation.</li> <li>• adaptive launcher icon.</li> <li>• navigation to activities.</li> <li>• visually attractive UI</li> <li>• published to &amp; downloadable from Google Play Store.</li> <li>• UI tests verify correctness.</li> </ul>	<p>The application does not, or does not fully contain evidence on the following:</p> <ul style="list-style-type: none"> <li>• opens &amp; runs on API 28: Android 9.0 (Pie) without file structure &amp; code modification.</li> <li>• text translation, text to speech &amp; localization support.</li> <li>• selection of well-known phrases.</li> <li>• interactive quiz.</li> <li>• exit application via dialog.</li> <li>• Google map displaying markers.</li> <li>• light &amp; dark mode.</li> <li>• splash screen with image &amp; transition animation.</li> <li>• adaptive launcher icon.</li> <li>• navigation to activities.</li> <li>• visually attractive UI</li> <li>• published to &amp; downloadable from Google Play Store.</li> <li>• UI tests verify correctness.</li> </ul>

Code Elegance	<p>Kotlin &amp; XML files thoroughly contain no magic numbers/strings &amp; are stored in their appropriate XML files.</p> <p>Application code thoroughly demonstrates code elegance on the following:</p> <ul style="list-style-type: none"> <li>• correct use of intermediate variables, i.e., no method calls as arguments.</li> <li>• idiomatic use of control flow, data structures &amp; other in-built functions.</li> <li>• sufficient modularity, i.e., code adheres to DRY, KISS &amp; SOLID.</li> <li>• adhere to an OO architecture, i.e., classes, functions, concise naming &amp; functions assigned to the correct classes.</li> <li>• efficient algorithmic approach.</li> <li>• code formatted Kotlin &amp; XML files.</li> <li>• No dead or unused code.</li> </ul>	<p>Kotlin &amp; XML files clearly contain no magic numbers/strings &amp; are stored in their appropriate XML files.</p> <p>Application code clearly demonstrates code elegance on the following:</p> <ul style="list-style-type: none"> <li>• correct use of intermediate variables, i.e., no method calls as arguments.</li> <li>• idiomatic use of control flow, data structures &amp; other in-built functions.</li> <li>• sufficient modularity, i.e., code adheres to DRY, KISS &amp; SOLID.</li> <li>• adhere to an OO architecture, i.e., classes, functions, concise naming &amp; functions assigned to the correct classes.</li> <li>• efficient algorithmic approach.</li> <li>• code formatted Kotlin &amp; XML files.</li> <li>• No dead or unused code.</li> </ul>	<p>Kotlin &amp; XML files contain no magic numbers/strings &amp; are stored in their appropriate XML files.</p> <p>Application code demonstrates code elegance on the following:</p> <ul style="list-style-type: none"> <li>• correct use of intermediate variables, i.e., no method calls as arguments.</li> <li>• idiomatic use of control flow, data structures &amp; other in-built functions.</li> <li>• sufficient modularity, i.e., code adheres to DRY, KISS &amp; SOLID.</li> <li>• adhere to an OO architecture, i.e., classes, functions, concise naming &amp; functions assigned to the correct classes.</li> <li>• efficient algorithmic approach.</li> <li>• code formatted Kotlin &amp; XML files.</li> <li>• No dead or unused code.</li> </ul>	<p>Kotlin &amp; XML files contain frequent magic numbers/strings &amp; are not or are not fully stored in their appropriate XML files.</p> <p>Application code does not or does not fully demonstrate code elegance on the following:</p> <ul style="list-style-type: none"> <li>• correct use of intermediate variables, i.e., no method calls as arguments.</li> <li>• idiomatic use of control flow, data structures &amp; other in-built functions.</li> <li>• sufficient modularity, i.e., code adheres to DRY, KISS &amp; SOLID.</li> <li>• adhere to an OO architecture, i.e., classes, functions, concise naming &amp; functions assigned to the correct classes.</li> <li>• efficient algorithmic approach.</li> <li>• code formatted Kotlin &amp; XML files.</li> <li>• No dead or unused code.</li> </ul>
---------------	---	---	---	--

Documentation & Git Usage	<p>README file contains comprehensive evidence of:</p> <ul style="list-style-type: none"> <li>• URL to application's privacy policy.</li> <li>• wireframes sketched of the application.</li> <li>• step-by-step user guide.</li> <li>• code commented with KDoc &amp; generated with Dokka.</li> <li>• URL to application on Google Play Store.</li> </ul> <p>Git branches comprehensively named with convention &amp; contain code relating to the feature.</p> <p>Git commit messages comprehensively formatted &amp; reflect the feature changes in concise detail.</p> <p>Continuous integration using GitHub Actions comprehensively setup.</p>	<p>README file contains clear evidence of:</p> <ul style="list-style-type: none"> <li>• URL to application's privacy policy.</li> <li>• wireframes sketched of the application.</li> <li>• step-by-step user guide.</li> <li>• code commented with KDoc &amp; generated with Dokka.</li> <li>• URL to application on Google Play Store.</li> </ul> <p>Git branches clearly named with convention &amp; contain code relating to the feature.</p> <p>Git commit messages clearly formatted &amp; reflect the feature changes in substantial detail.</p> <p>Continuous integration using GitHub Actions clearly setup.</p>	<p>README file contains evidence of:</p> <ul style="list-style-type: none"> <li>• URL to application's privacy policy.</li> <li>• wireframes sketched of the application.</li> <li>• step-by-step user guide.</li> <li>• code commented with KDoc &amp; generated with Dokka.</li> <li>• URL to application on Google Play Store.</li> </ul> <p>Git branches named with convention &amp; contain code relating to the feature.</p> <p>Git commit messages formatted &amp; reflect the feature changes in detail.</p> <p>Continuous integration using GitHub Actions setup.</p>	<p>README file does not or does not fully contain evidence of:</p> <ul style="list-style-type: none"> <li>• privacy policy discloses user information collected.</li> <li>• wireframes sketched of the application.</li> <li>• step-by-step user guide.</li> <li>• code commented with KDoc &amp; generated with Dokka.</li> <li>• URL to application on Google Play Store.</li> </ul> <p>Git branches are not or are not fully named with convention &amp; do not or do not fully contain code relating to the feature.</p> <p>Git commit messages do not or do not fully formatted &amp; reflect the feature changes.</p> <p>Continuous integration using GitHub Actions not or not fully setup.</p>

# Project Marking Cover Sheet

Name:

Date:

Learner ID:

Assessor's Name:

Assessor's Signature:

Criteria	Out Of	Weighting	Final Result
Functionality	10	40	
Code Elegance	10	45	
Documentation & Git/GitHub Usage	10	15	
Final Result			/100
This assessment is worth 80% of the final mark for the Mobile Application Development course.
